"NURI", where the light meets the world, is your newest Korean favorite restaurant.

Nuri is term that has a special significance in both the Arabic and Korean languages.
In Arabic, it means "Light", shining or brightness.

In Korean, it is a native word which means "World", emphasizing that the world is connected in so many ways.

This Light connects people through love, friendship, and happiness.
Experience the Light with your friends and family during your Korean dining experience here in the World of "NURI"

Building up from the roots of Madang, with the tradition of authentic Korean cuisine, we have refined our concept and created a luxurious Korean grill and bar restaurant that seamlessly blends the art of fine dining with the attraction of a vibrant bar, private karaoke, and Omakase dining experience.

Situated in the heart of Yas Island, Abu Dhabi, Nuri is the ultimate destination for an exceptional culinary adventure, and the epitome of Korean barbecue fine dining where water aging dominates and flavor knows no boundaries.

We are thrilled to bring the traditional flavors of Korea to the heart of Abu Dhabi.

American Black Angus

Weight: 3500lbs-4200lbs
Source: Specialty farms across the Midwest

"America's Pride," "The Steakhouse Classic"

Black Angus is the dominant beef breed in the US. It is known for producing large muscles with abundant marbling resulting in high quality meat. We dry age our Prime grade Black Angus beef in house to maximize its flavor by expelling water from the subprimals and, through enzymatic process, tenderizing the beef from within.

Australian Wagyu

Weight: 900lbs-1,200lbs
Source: Queensland & New South Wales

"The Superior Choice," "The Creamy Cut"

Wagyu beef is superior because it has the greatest amount of marbling, which means it also has the most oleic acids (a monounsaturated fatty acid, naturally found in the fats and oils of animals and vegetables). These fatty acids have been shown to improve an individual's health by increasing their ability to fight off infections and diseases as well as boosting their immunity.

Japanese Wagyu

Weight: 1,100lbs-1,200lbs
Source: Kagoshima & Miyazaki prefecture

"The Sublime," "The Butter Steak"

Wagyu translates into "Japanese cattle" and beef produced there is the rarest and most expensive on earth. Through diligent breeding and farming practices the Japanese have developed beef with the most abundant marbling of any breed. The resulting meat is astonishingly tender and toothsome, truly a luxury experience.

BEEF GRADE

Water-Aged Meat

At NURI, we are proud to only serve the best of — the very pinnacle of beef. Whether we are talking about domestic, hybrid, or imported, we only serve the highest grade of that beef available. That means Prime grade, which accounts for only 5% of American beef production. Prime beef must be from young cattle and exhibit abundant marbling. We further enhance it by dry aging select cuts in-house, just like an old school steakhouse.

A method of aging for about 360 hours or more in low-temperature salt water at 1 degree Celsius. Maintaining a certain temperature has the effect of softening the meat and deepening the flavor, and minimizing the drip caused by gravity to prevent loss of juice.

**NURI OMAKASE | 누리 오마카세**

Try the Nuri Omakase ("I will leave it up to you") course where our Chef brings the guest the best seasonal food selection.

We offer a specially crafted 10-course menu, Prime cuts of meat, and fresh seafood using the finest ingredients imported directly from South Korea.

750 per person

Weekday - 7pm to 9:30pm

Weekend & holiday - 1st. 1pm to 3:30pm 2nd. 7pm to 9:30pm

*Nuri Omakase is happy to serve 12 guests only for a day. Reservation is required at least one day prior
