

CONRAD® SPA
TREATMENT COLLECTION

Beginning and ending every treatment within our menu, we take you through a five-breaths meditative process. Using pressured touch and synchronized breathing, we encourage your total focus on the space you inhabit in our spa, ensuring total treatment optimization.

Breathing is closely connected to the parasympathetic system in the body, which does the opposite job of the sympathetic system, which prompts the fight-or-flight response. The parasympathetic system is sometimes called the “rest-and-digest” system because it calms and slows your body into relaxation.

The number five is special; we have five fingers on each hand, five toes on each foot, five senses, and in turn five sensory organs. Across cultures, the number five also holds a special place, with many associating it with freedom and curiosity.

AND BREATHE...

Take five deep breaths.
Take a moment to mindfully inhale and exhale five times to encourage a gentle reset.
Welcome to the moment.

Conrad Spa offers limitless possibilities and the ultimate experience for the modern spa connoisseur.
We invite you to reconnect with yourself and your well-being, immerse yourself in the discovery of our location, and feel refreshed and revived by the Conrad Spa experience.

THE DESTINATION

Nestled within a serene mangrove forest and surrounded by a vibrant tropical jungle, Conrad Spa Tulum offers an extraordinary fusion of tradition, science, and art; a sanctuary dedicated to the integral well-being of every guest.

Here, you will be immersed in the enriching essence of a spa experience that thoughtfully weaves the culture and artistry of Mayan and Mexican traditions into each of our powerful and nourishing rituals. With deep respect and care for our environment and community, every step of your spa journey is curated with intention and imbued with purpose.

At Conrad Spa Tulum, we celebrate the harmonious convergence of modern wellness and sacred traditions, crafting transformational experiences that inspire holistic well-being.

The Kinich Ahau Journey

In Mayan culture, the God of the Sun was the creator of light, time, and the four directions of the universe, symbolized by the jaguar, eagle, and deer, embodiments of power.

Our signature experience begins with a cleansing ritual using rue, rosemary, and basil, followed by a 4-hand massage with hot poultices of corn and cocoa seeds, symbols of abundance. Synchronized with pre-Hispanic music, this ritual evokes the jaguar's stride, the eagle's glide, and the deer's steps, helping you rediscover your inner strength.

80 minutes

The Kukulcán Journey

The god Kukulcan, the feathered serpent, symbolizes life's duality, his feathers represent divinity, while his serpent body connects to the earthly, uniting the celestial and terrestrial.

This transformative journey begins with a guided meditation and a copal limpia, helping release the past and embrace the present. The ritual unfolds like a poem, blending the Mexican Sobada technique, medicinal herbs, and pre-Hispanic music. Through synchronized movements, you will feel the glide of the feathered serpent and the flight of the golden eagle, reconnecting with sacred Mayan energy.

100 minutes

The Itzamná Journey

The god Itzamná symbolized wisdom and health for the ancient Mayans, who believed that illness stemmed from an imbalance between the body and soul. They used medicinal plants to restore harmony with the energy of the universe and Earth.

Your journey begins with an energy cleanse using traditional medicinal plants, followed by a nopal and agave body wrap and a signature massage of the 13 joints with hot herbal and seed poultices. The experience concludes with an energizing full-body massage, leaving you detoxified, relaxed, and renewed.
