eBike Rental

2 hour rental: \$75

4 hour rental: \$120

6 hour rental (full day): \$145

Soar through the undulating hills of Park City Utah, taking in the grand vistas of the area or exploring the shops in town at your own pace. Our Rad Runner Power Bikes will carry you with ease up inclines as your cruise around enjoying the local food and vistas the historic city has to offer. If it's your first time exploring the city, we would recommend booking one of our epic eBike tours first to learn the hidden back roads and secret pathways of the area to stay safe and avoid traffic.

eBike Tour

Make the most of Park City's network of scenic bike roads by exploring the city with one of our expert guides. Views of mountains, and treelines astound, and are great for groups looking for a day's adventure or families looking for a fun activity. Our guides know the best routes to take you through the Historic Main Street and Old Town, Park City, providing information about the sites and history along the way. Peddle as much as you want, or sit back and enjoy the ride and let the electric engines do all the work.

Adventurers have the option to stop for coffee, tea, or juice. Kids seats available for riders 1-7 years old.

MOUNTAIN BIKES

Mountain Bike Drop

Already know how to ride? No problem! We've got daily mountain bike drops you can book. Use one of our mountain bikes or use your own. Our Daily Drops meet at 4pm at our Expert Active space located at the entrance of the hotel. After a route and safety briefing, we will depart at 4:30, arriving at the accurately named "WOW " trailhead at 5pm. The trail drops down 4000 feet through valleys and a scenic national forest, where you will get picked up at the bottom by our van and transported back to the hotel, returning by 8:30.

Mountain Bike Tour

Our trained guides love nothing more than to take you exploring Park City's 450+ miles of trails.

This tour will start at our shop located near the front entrance of Waldorf Astoria, where we will sign waivers and determine the best route for your skill level.

After getting you and your group measured for bikes and outfitted in safety equipment, we will then load onto a vehicle and drive up to a drop point on the mountain where you will follow a guide down the trail, riding to a meet point at the bottom, where we will then do the same trail or new ones several more times.

SCENIC HIKES

Sunset Drop Hikes

This daily activity transports guests to Bloods Lake, a mountain top lake-side trail on Wasatch Mountain with views of aspens, lakes, and Park City. Hikers will have the option of self-guided hikes that last 2 or 5 miles.

Guided Hikes

Park City Utah is home to some of the most breathtaking hikes in the country, with aspen snow capped mountains, inspiring vistas, and pristine lakes. Let our expert guides show you the best trails and pick a route that is suited to your abilities. You will meet at our location near the front entrance of Waldorf Astoria and then get transported up to one of the many trails on Wassach mountain, where a guide will lead you on a 1, 3 or 5 mile customized hike of the area built around your abilities and desires.
